

the
Heroes
of
DOG

This is Duff Dog.

He got stuck on an island when he was four years old, and he found out that if he put money in the water, it would bring you food. And he was carrying money, and he met some people who wanted money. And he said, "No!", and then they shot an arrow at him, and he became **Duff Dog**.

This is Wolf Girl.

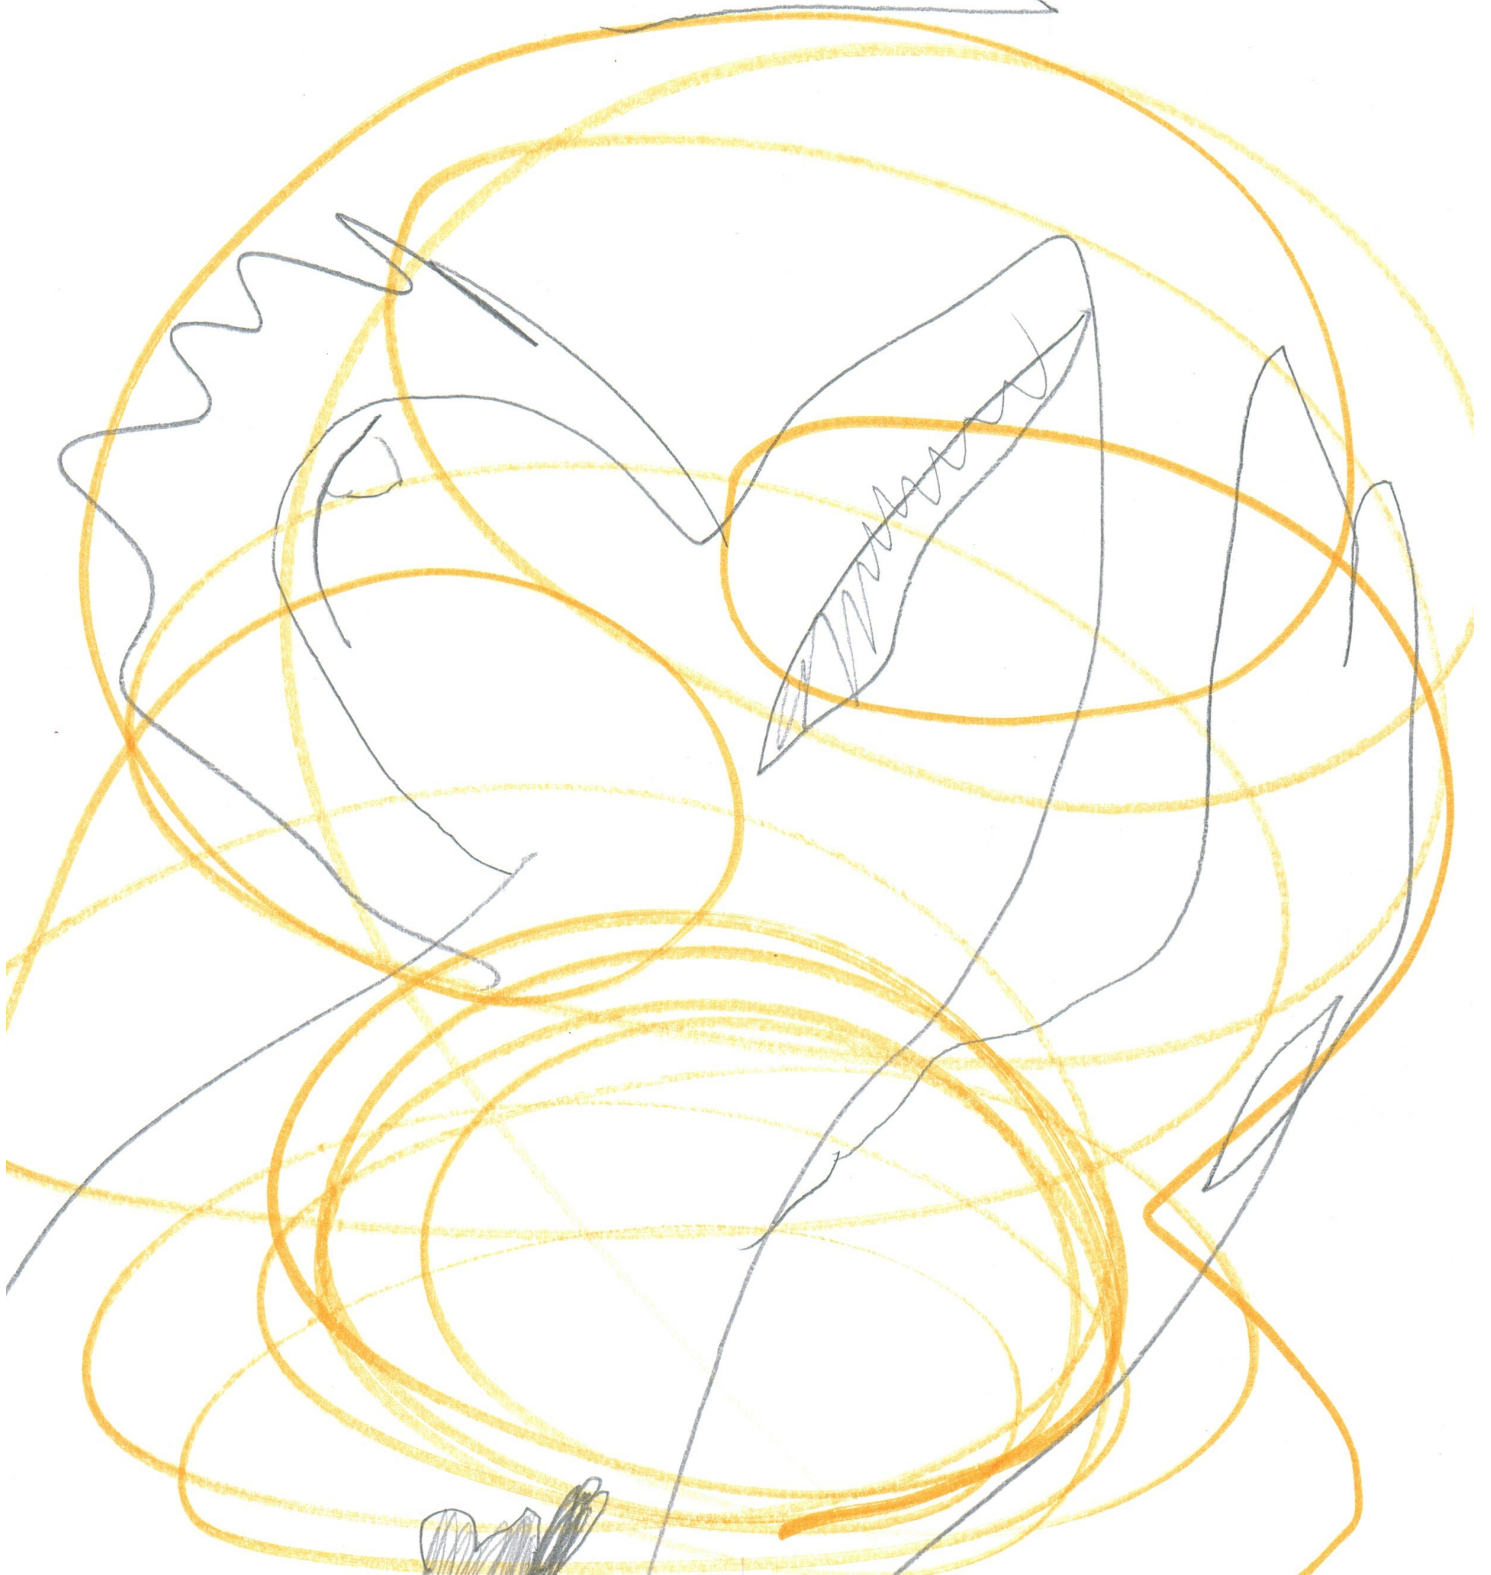

Wolf Girl was born from wolves, but she was a dog,
except she had bigger fangs, like a wolf. And then she
was **Wolf Girl**.

This is Thunder Dog.

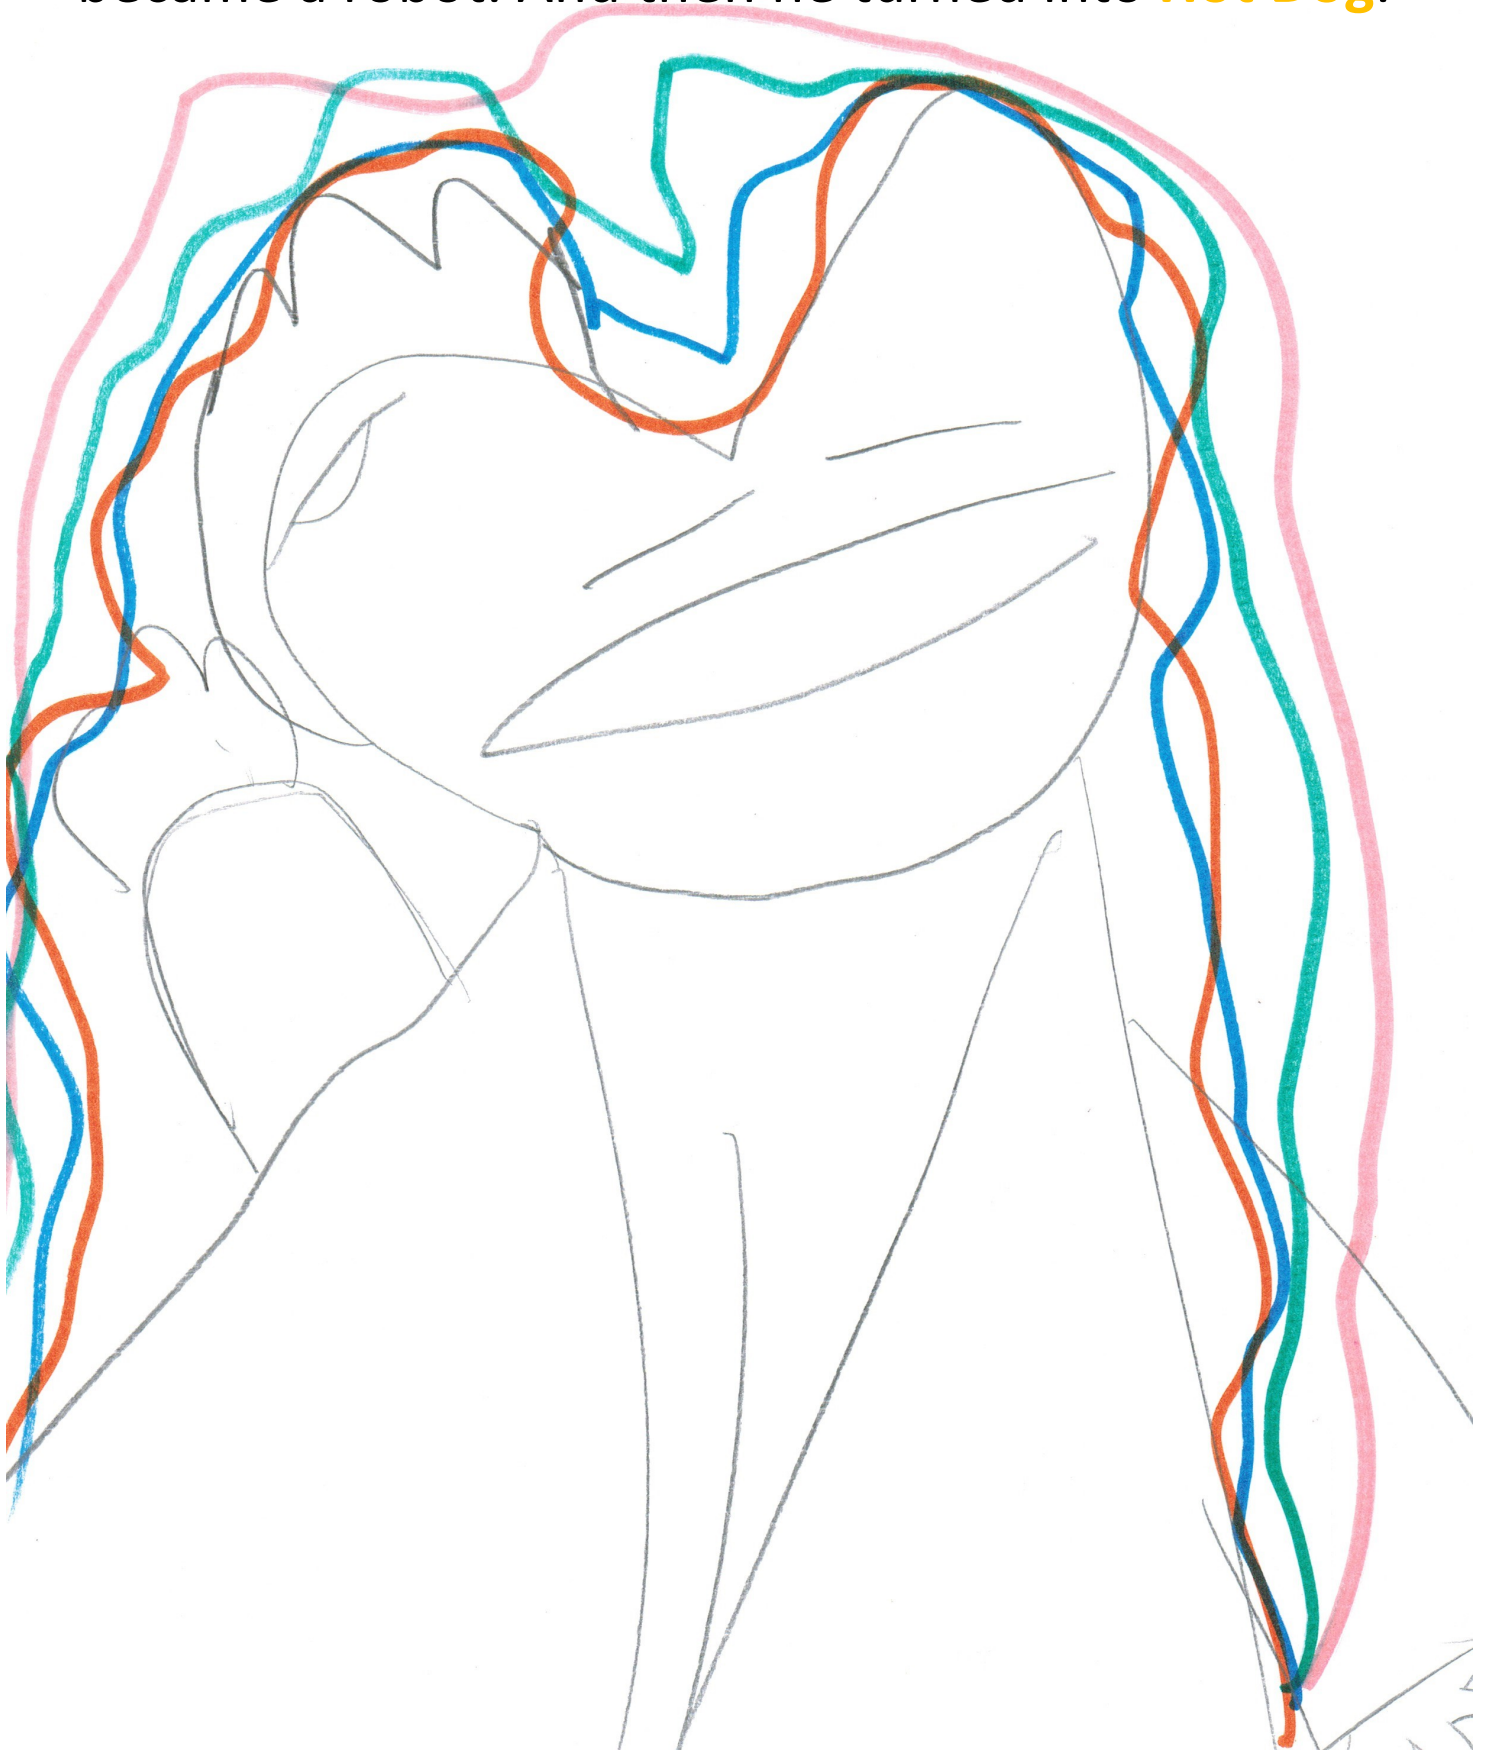

He was struck by a lightning explosion. And then he
was **Thunder Dog**.

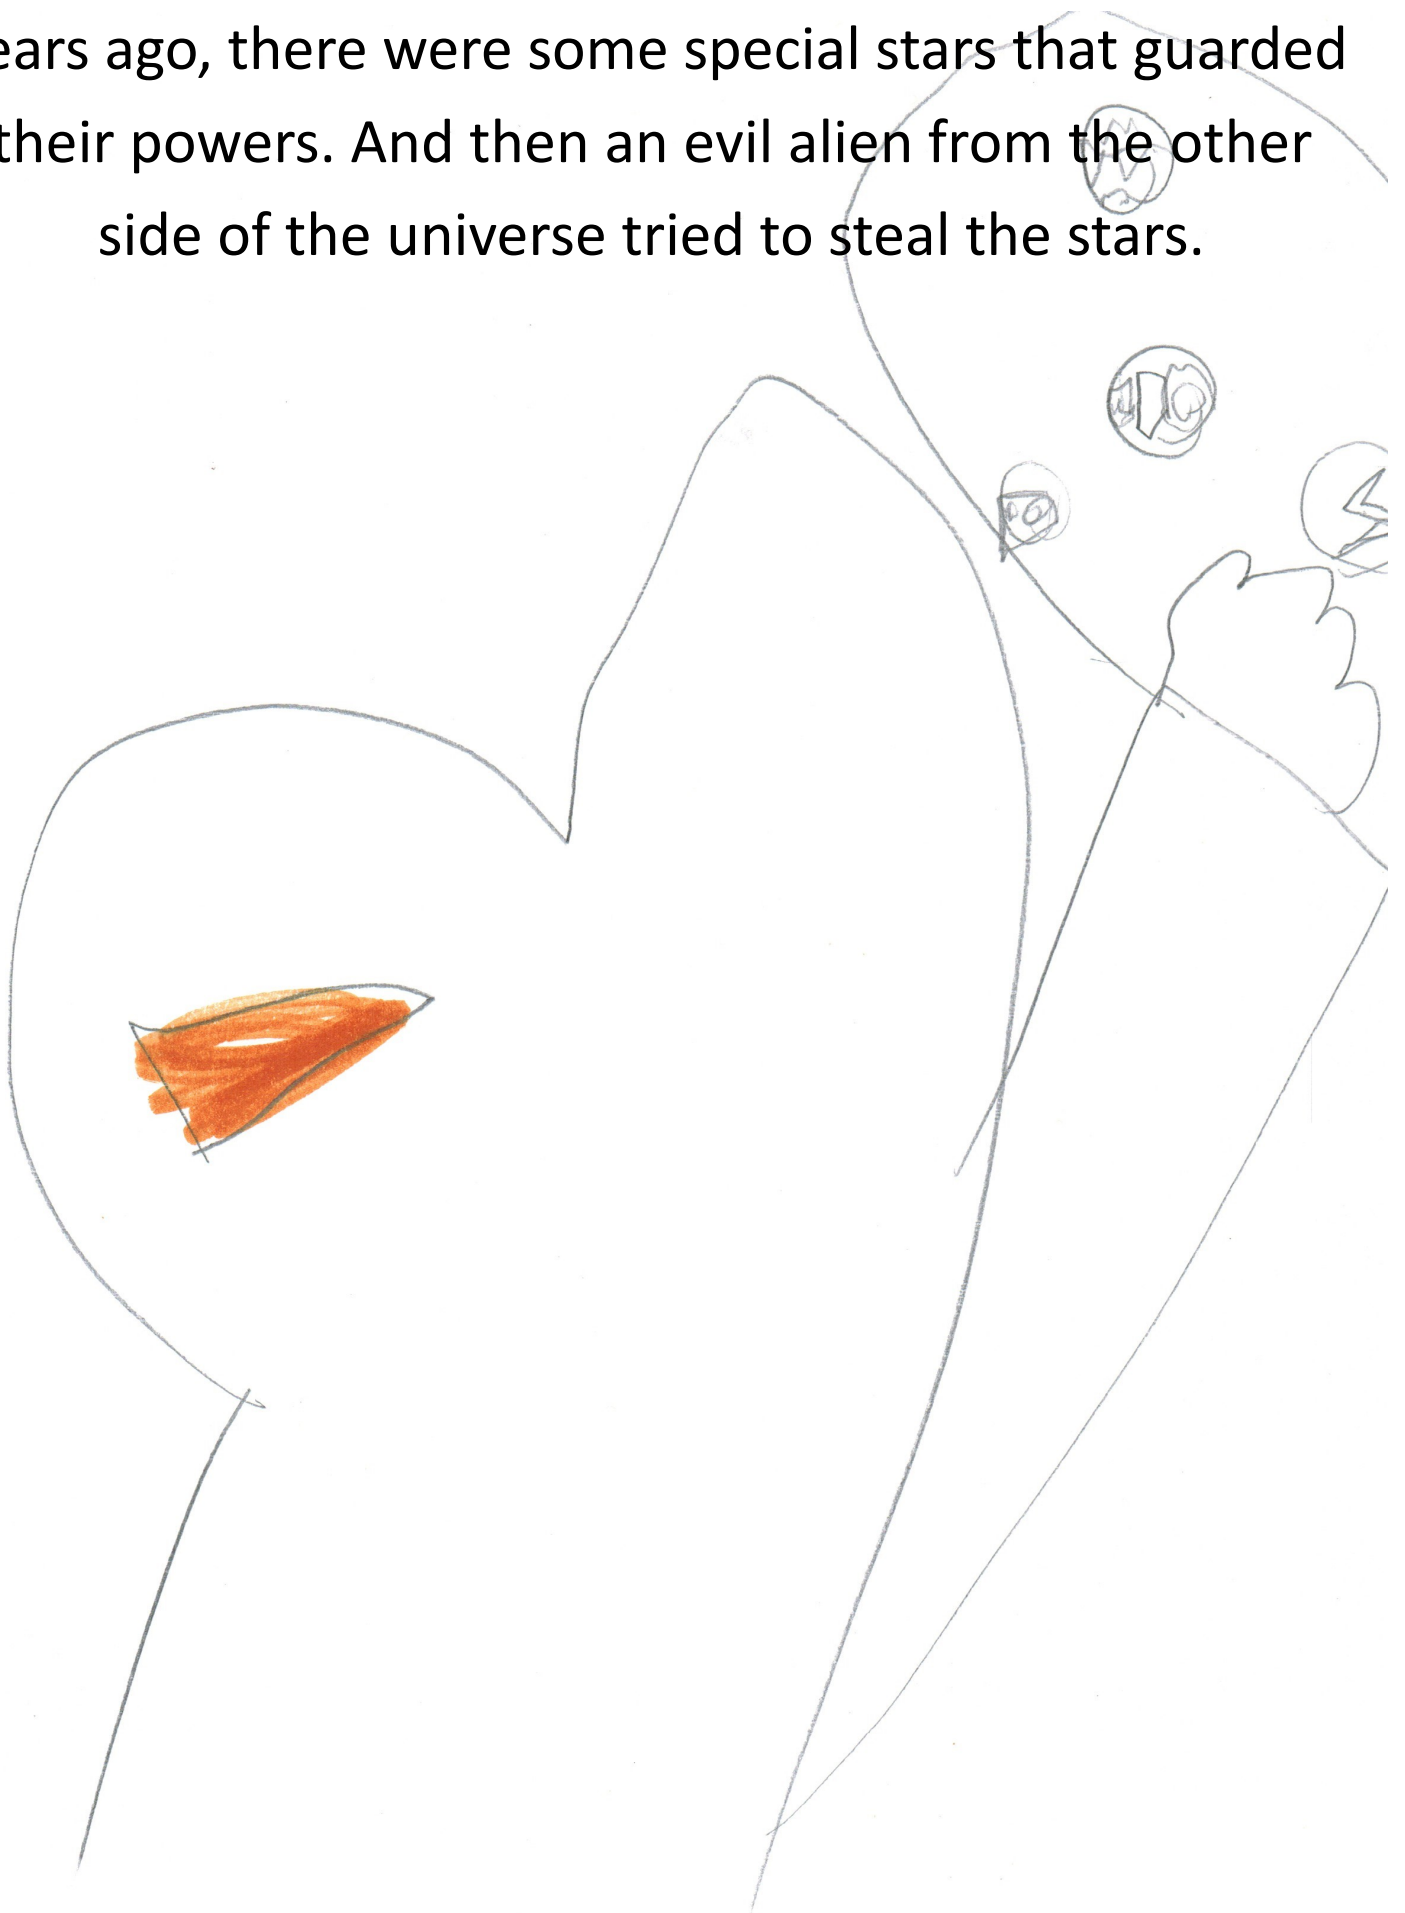

This is Hot Dog.

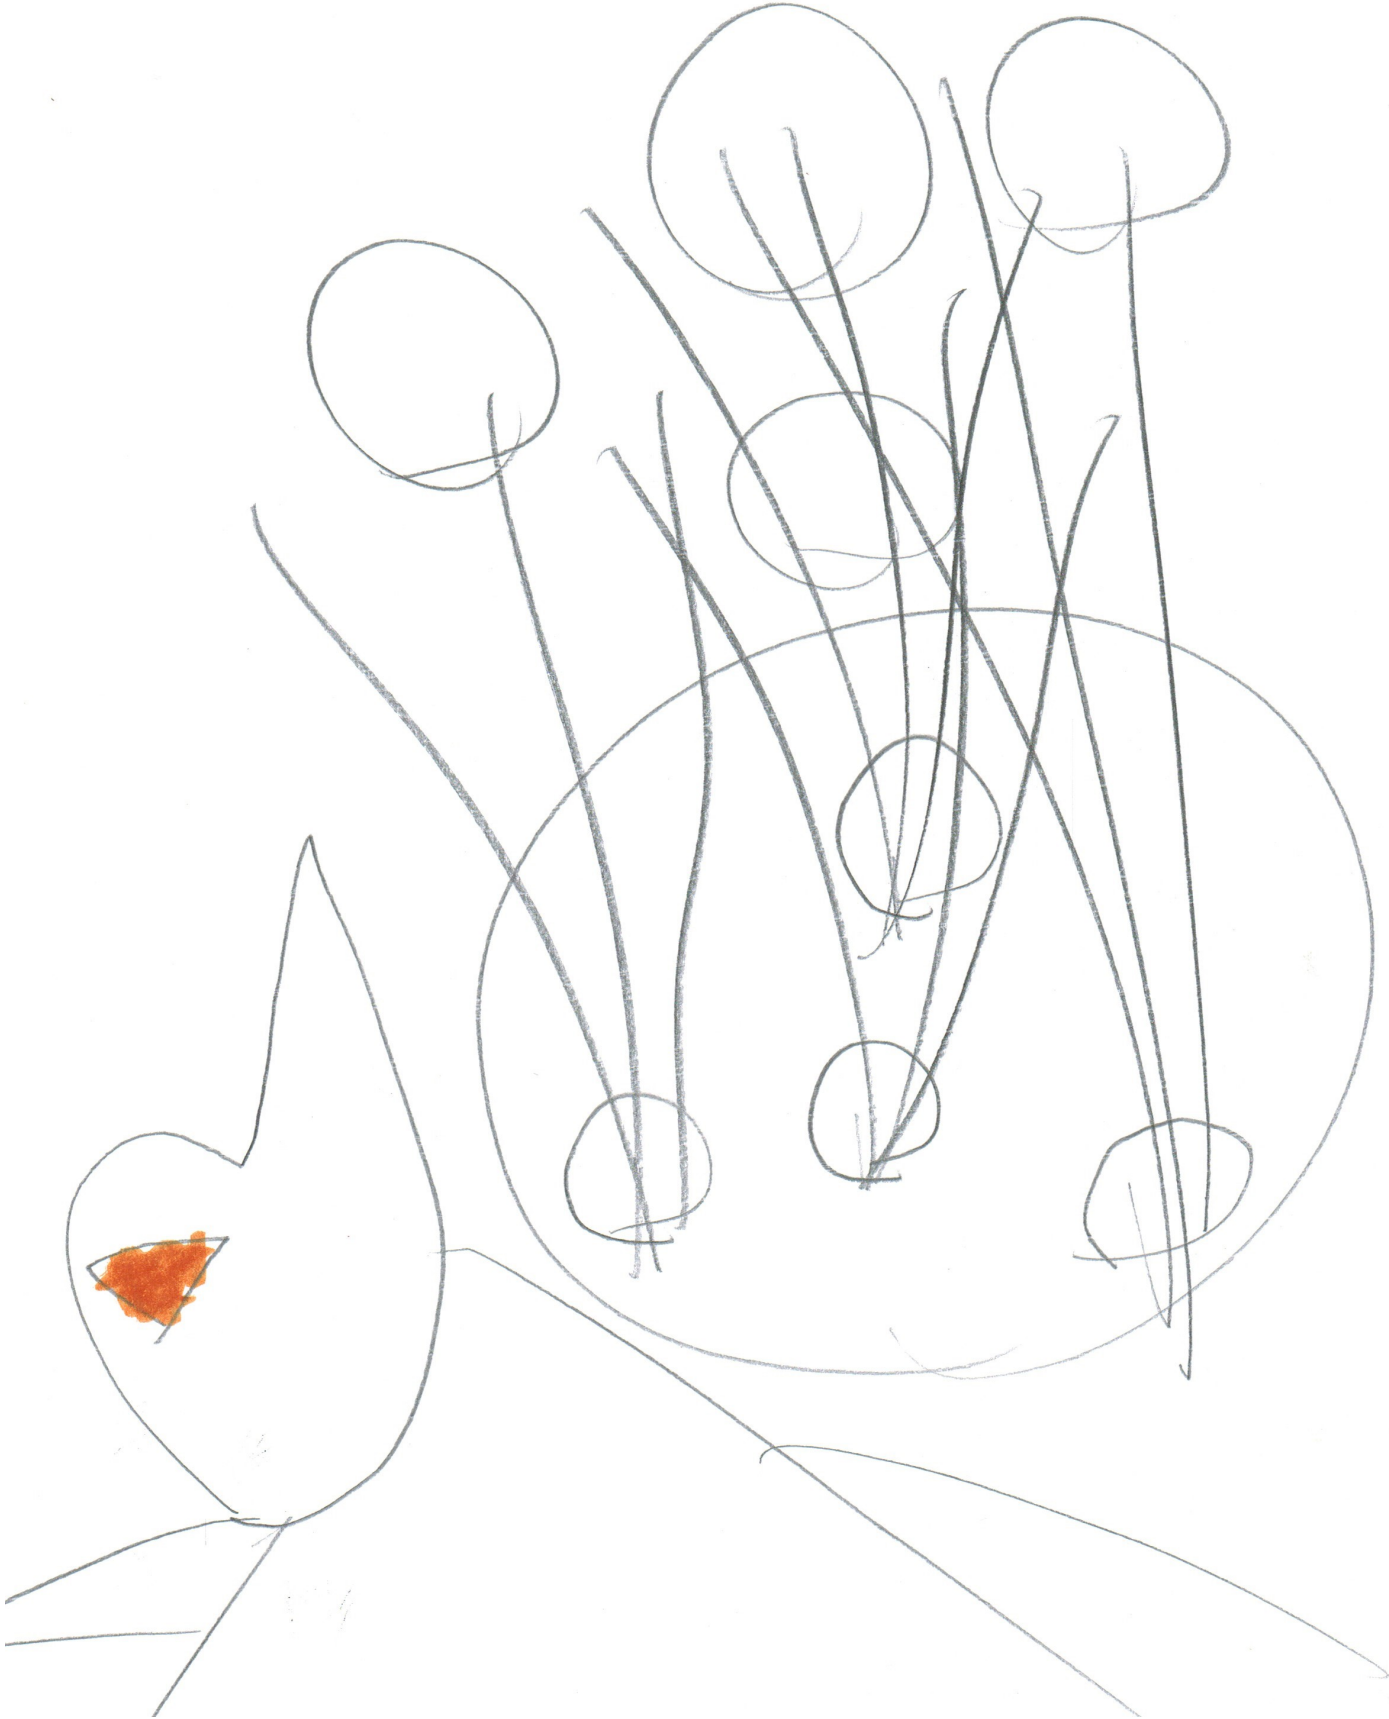

He was doing a science experiment, until he accidentally added too much of his potion, and then he became a robot. And then he turned into **Hot Dog**.

Years ago, there were some special stars that guarded their powers. And then an evil alien from the other side of the universe tried to steal the stars.

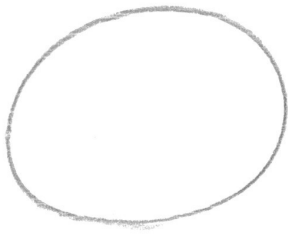

Luckily, the stars escaped and searched for the team of heroes who would guard the galaxy.

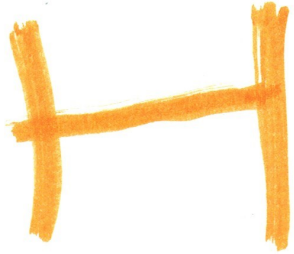

And there is only one team who could
stop the alien!

They are: **The Heroes of Dog!**

The star highest to the right is the star of Wolf!

The star highest to the left is the star of all the powers in the Universe!

The star on the lower left will make you the smartest person in the world!

And the star on the lower right will make you the strongest, fastest, stretchiest person on the planet!

The End.
